2nd WEEKEND – April 8-9, 2011
BEGINNING ON FRIDAY AFTERNOON

WHY A SUMMIT? African American people are becoming a landless people in the United States. We are losing the land and wealth that our parents, grandparents and great grandparents worked, fought and died to acquire for us. We owe our ancestral warriors a debt. USDA has not helped us and certainly the courts have proven more devastating than we ever dare thought. So, who will help us? WE must help ourselves by insuring that the next generation is ready to control the land. **Come and let us plan together (our enemies do).**
